

# Benefit from greater reassurance with our takeout/delivery labels

## Five labels in one print job

# FreshLoc2Go

For food service operators to seal takeout foods/deliveries securely and label them with multiple information, at higher accuracy and productivity.

- One printer model, one label roll type
- Less downtime from less roll changes; no more mislabeling with all the different labels you need printed at the same time
- Zero paper liner and waste
- Effective protection against tampering

# What FreshLoc2Go labels contain

<p><b>① Ingredients and allergens</b></p> <p>List ingredients, nutrition and allergen information for food safety.</p> <p><b>Allergens in bold</b></p>	<p><b>② Special requests and delivery notes</b></p> <p>Indicate customer requests for toppings or menu modifications with delivery notes to ensure orders are prepared/handled accordingly.</p>	<p><b>③ Order status (store's copy)</b></p> <p>Help stores track whether items have been picked up or dispatched for delivery to ensure no orders are left out.</p>
<p><b>④ Best before date</b></p> <p>Show the recommended date/time item should be consumed by for optimal quality.</p>	<p><b>⑤ Security slits</b></p> <p>Security slits on the label surface split label into pieces to indicate tampering when peeled. Use this portion to seal food deliveries and provide reassurance that each order has remained untouched in transit.</p> <p><b>Tamper-evident feature</b></p>	 

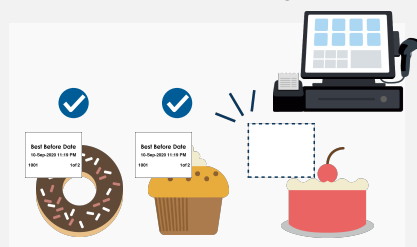

## Other benefits

By printing labels for each ordered item, you can:

1. Pack orders correctly to prevent missing items

2. Identify gaps in your POS data immediately

By adding the delivery provider's logo to labels, you can:

Hand over the right order to the right food delivery rider quickly (Information on delivery provider can be extracted automatically from order data using a printer application built with our AEP\* technology)

\* AEP: Application Enabled Printing
